Layers System

ITF CLASSIFIED COURT PACE 3 MEDIUM

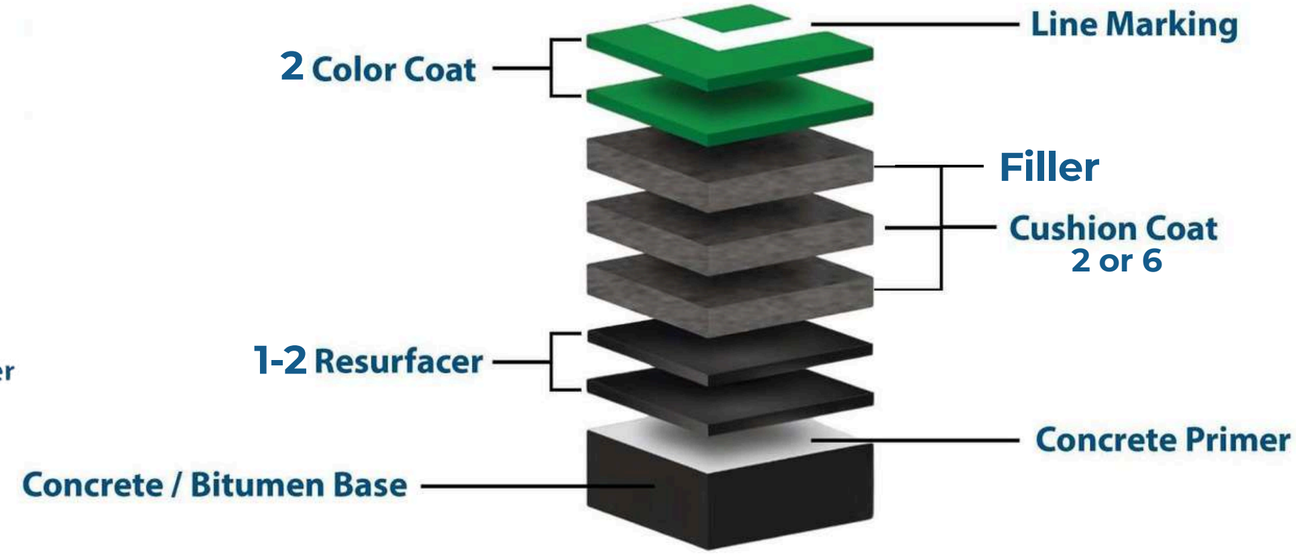

CLOUD COURT®

Premium Sports Surface Material

5 Layers

8 Layers

Concrete Primer

CLOUD COURT®

Premium Sports Surface Material

- **Cloud Court's** Primer is a water based acrylic primer specifically formulated for use as a primer dressing in a sports flooring system. It absorb into the concrete surfaces, filling in small imperfections and creating a smooth base.

- Primer is a high strength coating on a concrete surfaces for providing excellent adhesion and is quick drying in few hours, so you can move on to your flooring or coating project quickly. Ideal for outdoor sports surfaces, concrete primer gives coating a professional, long-lasting finish

CLOUD COURT®

Premium Sports Surface Material

Acrylic Resurfacer

Cloud Court Resurfacer is water based acrylic binder, it is used for the asphalt bases for adherence the upper layers pores filling, minor cracks filling and tolerating the surface undulations and irregularities. It is used to repair, smooth and prepare external play area for different Courts like Tennis Courts, Pickle Ball Courts, Basketball Courts, Hand Ball Courts, Walking Tracks, Running Tracks, Multi purpose Courts.

Liquid Cushion

CLOUD COURT®

Premium Sports Surface Material

Cloud Court's Cushion Coat is made from acrylic binder and rubber particles. It is a used to create multi-layered surface system that reduces player discomfort and impact on the lower body during sports activities. It makes the court more comfortable to play by reducing the impact when players run or jump, gives them safety with better playing experience. It is mixed with water before application. For best results, the Cushion Coat must be applied on Resurfacer layers in multiple of 2 with maximum 6 layers to a properly prepared surface for durability, performance and long-lasting surface protection.

Filler Profile

CLOUD COURT®

Premium Sports Surface Material

Cloud Court's Filler Profile is the unpigmented acrylic surfacing materials used to level, texture, fills minor gaps, low spots, and texture irregularities to create a smooth, durable base and is applied before the final color coating.

Top Coat

CLOUD COURT®

Premium Sports Surface Material

Cloud Court's Top Coating colors are crafted with a high pigment concentration, delivering rich, bold shades that not only look great but also provide excellent coverage. This ensures court maintains a professional appearance with less paint required for touch-ups. Top Coating Layers provide a textured finish that gives good grip, reduces slipping and gives good aesthetic look. And its advanced double UV protection ensures that the colors stay vivid and fresh over time, even under the blazing sun.
